Introduction

Welcome to the Coverage Gap Discount Program (CGDP) Manufacturer Portal Payments Users Guide. This guide provides you, the Manufacturer, information on accessing the CGDP Portal to review, initiate, and track payments on distributed quarterly invoices as well as generate invoice and receipt reports.

As a Manufacturer participating in the CGDP (the Program), you have agreed to reimburse Medicare Part D Sponsors advancing the coverage gap discount amounts on behalf of Medicare beneficiaries who received covered Part D drugs while in the coverage gap phase of the Medicare benefit.

This guide will assist you in complying with the Program requirements by utilizing the CGDP Portal to review distributed quarterly invoices and remit payments to Sponsors for covered prescription drug event (PDE) advances to Medicare beneficiaries as well as review quarterly and/or Benefit Year (BY) Closeout invoice payment receipts due from Sponsors.

The primary function of the CGDP Portal, here forward known as the Portal, is to provide a central repository for Program-qualified PDE invoices to be distributed and paid by Program participants. In order to facilitate this processing, the Portal's direct payment process provides Manufacturers the ability to perform the following Payment functions:

- Invoice review
- Invoice selection for payment initiation
- Invoice payment deferment
- Batch Invoice payment selection
- Automatic payment verification
- Payment receipt review
- Reports retrieval

The Portal allows Manufacturers the ability to review invoice line items due to Medicare Part D Sponsors as well as payments due from Sponsors to Manufacturers. It also provides the ability to initiate bank-to-bank automated clearing house (ACH) transfers for invoice line item payments due to Sponsors, similar to the way online banking customers pay monthly bills.

Note: All invoice payments must be processed in the Portal.

The **CGDP Manufacturer Portal Payments Users Guide** will provide information on the payment functions available in the Portal as well as tasked-based instructions for performing payment initiations, payment and receipt status review, and invoice and receipt report information retrieval using the Reporting link functionality.

CGDP Portal Login

The Portal is a U.S. government information system. To access the Payment functionality a user must have authorized access to the Portal.

Authorized users of the Portal application must adhere to CMS information security policies, standards and procedures.

Detailed login instructions are located on the TPAdministrator.com website under [References](#) in the **CGDP Manufacturer Portal Introduction and Login Users Guide**. Instructions contained within the guide include:

- Initial Security Data Set Up
- Daily Login
- Account Maintenance
- Navigation of the CGDP Portal and its tabs and links

Note: Users will not have the ability to view other Manufacturers' data.

The CGDP Portal is accessed via a link on the TPAdministrator.com website.

The screenshot shows the Palmetto GBA TPA website. At the top, there is a navigation bar with links for Archives, Contact Us, and Email Updates. Below this is a search bar and a menu with TPA, Topics, and Tools. The main heading is "Welcome to the Third Party Administrator (TPA)". Below the heading is a paragraph explaining the TPA's role and a list of resources. A row of four cards is displayed: "CGDP PORTAL" (highlighted with a red border), "CONTACT US", "EMAIL UPDATES", and "FAQ". Below these are three boxes: "DISPUTES", "EFT INFORMATION", and "INVOICES" on the left; "IMPORTANT UPDATE" with a text block about Medicare Part D CGDP Q3 2019 payment deadlines and a "Learn More" link in the middle; and "CGDP CUTOFF DATES" with a table of dates and a "Learn More" link on the right.

Reporting Period	Invoice Distribution	Invoice Payment Deadline	Disputes Submission Deadline
Q4 2019	1/31/2020	3/10/2020	4/1/2020

Once the Portal Login page displays, the Welcome and Site Use warning notification is presented to the authorized user and they are provided with the ability to review the Terms of Use of the application.

To access the Portal, Manufacturers will enter their credential information provided by the TPA Operations Team. The User ID is the Corporate ID number assigned by the CMS Health Plan Management System (HPMS) that categorizes the information loaded to the Portal. Information is limited to only the Manufacturer P numbers associated with the Corporate ID. The TPA provides the initial temporary password to access the Portal to the Manufacturer via email, once the onboarding process is complete.

To correctly exit out of the CGDP Portal, select the Logout link in the upper right hand corner of the active page. Do not select the “X” to exit the Portal.

Note: Failing to select the Logout link to exit the system will lock a user out of the Portal for a minimum of 30 minutes.

CGDP Portal User Roles

CGDP Portal Payment Initiator Role and Administrator Role

The Portal has two (2) different roles for users to access distributed invoices and reports.

- The **Payment Initiator** role provides the responsibility that allows a user to view all functionality of the Portal, including initiating payment of distributed invoices.
- The **Administrator** role provides the responsibility that allows the primary point of contact user to view all functionality of the Portal, save for the ability to initiate payments.

Note: Users will not have the ability to view other Manufacturers' data.

Manufacturer accounts have both the **Payment Initiator** role and **Administrator** role assigned to the primary point of contact as listed by the Manufacturer in the HPMS by default. The **Payment Initiator** role can be assigned to a different person. HPMS must be updated to display the new authorized associate in the CGDP Portal Payment Initiator role. Once HPMS is updated, the new authorized **Payment Initiator** or **Administrator** will contact the TPA Operations in order to receive their user credentials to access the Portal.

For example:

A Manufacturer has designated an associate, Mr. Price, as the primary point-of-contact for the Portal. An authorized HPMS user enters Mr. Price's information in to the **TPA Liaison** field, which the TPA can verify to assign both the **Payment Initiator** and **Administrator** role by default. Mr. Price will now have access to the Portal to review files and initiate payments.

The Manufacturer then determines that the Portal payment functionality should be assigned to their financial area. An authorized HPMS user enters Ms. Rentenmark's information in the **CGDP Portal Payment Initiator** field, which the TPA can verify to assign the **Payment Initiator** role to Ms. Rentenmark. She will have access to the Portal to review files and initiate payments while Mr. Price's Portal role will be updated to the **Administrator** role. Mr. Price will still be listed as the primary point-of-contact and will still have access to review files in the Portal.

Additional information regarding the Portal functionality for the **Payment Initiator** or **Administrator** role is available in subsequent sections of this manual titled **CGDP Portal Payment Initiator Role and Administrator Role** and in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.

Note: Portal User ID's are assigned to a specific person and **are not to be shared**. The person assigned Portal access is authorized by CMS and the TPA to access the data in the Portal. If the authorized user has changed, HPMS **must** be updated and the updated authorized user **must** contact the TPA to receive their authorized access credentials.

The user assigned the **Administrator** role will not have payment authorization available in the Portal.

The upcoming pages will highlight the differences available between the **Payment Initiator** role and the **Administrator** role in the **Payments** tab.

CGDP Portal Payment Initiator Role

This example of the **Payments** tab displays the view an associate with the **Payment Initiator** role will view.

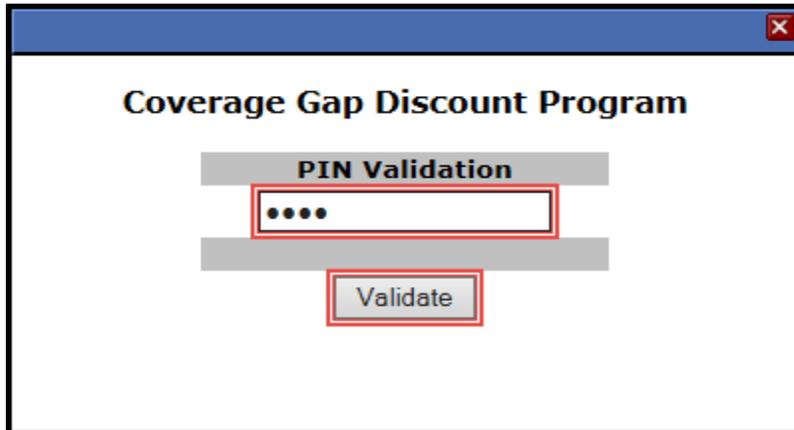

The screenshot displays the 'CGDP Payments' page. At the top, there are navigation tabs: Home, Payments (selected), Completed, Receipts, Reports, and Disputes. The main header includes 'Manufacturer Portal' and 'CGDP Payments'. Below this, there are filters for 'Invoice Reporting Period: 201502' and 'Payments due: 10/09/2015'. A search bar shows 'Contract Number: ALL', 'Corporate ID: XP1...6', and 'P Number: P1...1'. A 'Payment Information' summary box on the right shows: Total Invoiced \$40,294.00, Total Failed \$0.00, Total Deferred \$49.08, Total Pending \$11,049.92, Total Successful \$0.00, and Total Available \$29,195.00. The main table lists invoice items with columns for Contract Number, Invoiced Amount, Previous Deferred Amount, Payment/Failed Date, Initiate Payment, Defer, Failed, and EFT ID. A '1 Initiate All' checkbox is present above the table. Below the table, there is a '3 Update All' checkbox and a date field set to '02/04/2016'. A '4 Submit' button is at the bottom right of the table area. A 'Payment Initiation Upload' section on the right includes a 'Browse...' button and an 'Upload' button. Below the main table is a 'Pending Transactions' section with a table listing Contract Number, Authorization Amt, Date Submitted, Payment Date, and Stop Payment. A '5 Stop Payment(s)' button is located at the bottom right of this section.

Five (5) functions are available with the **Payment Initiator** role.

1. **Initiate All** check box provides a user with the functionality to populate the check box with a check mark. This action selects only invoice line items displayed on the active page for payment initiation.
2. **Payment Initiation Upload region** provides a location for uploading manually created payment files for users working with large volumes of payments for a reporting period.
3. **Update All** check box and field allows a user to set a future date only for invoices displayed on the active page.
4. **Submit** button provides a user one (1)-click functionality to process selected invoice line items for payment.
5. **Stop Payment(s)** button provides a user with one (1)-click functionality to process the selected invoices for stop payment.

Also assigned to a **Payment Initiator** role is the *PIN Validation* form, which requires the entry of a four (4)-digit numeric PIN once selection of the *Submit*, *Upload* or *Stop Payment(s)* buttons takes place for ANY payment initiation processing.

The **Payment Initiator** role associates can set the four (4)-digit numeric PIN using the *Initial Security Data Setup* instruction and update the PIN using the *Account Maintenance: Update PIN* instruction.

A screenshot of a web application window titled "Coverage Gap Discount Program". The window has a blue header bar with a close button (X) in the top right corner. The main content area is white and contains a "PIN Validation" section. This section consists of a grey header bar with the text "PIN Validation" in bold. Below this is a text input field with four dots (••••) inside, indicating a masked PIN. The input field is highlighted with a red rectangular border. Below the input field is a grey button with the text "Validate" in bold, also highlighted with a red rectangular border.

The instructions included in this guide provide **Payment Initiation** associates step-by-step guidance to complete payment processing.

1. Processing Invoice Payments
2. Processing Future Dated Invoice Payments
3. Initiate All Payment Processing Functionality
4. Processing Stop Payments
5. Processing Payment Initiation Upload Batch Functionality
6. Processing Deferred Invoices

Administrator role associates can benefit from the instructions provided to understand the payment process and the steps needed to complete processing invoice line item payments by the "Invoice Paid by 38th Calendar Day After Receipt" as listed on the [Medicare Part D CGDP Calendar](#).

These five (5) functions are **not** available with the **Administrator** role.

1. Initiate All
2. **Payment Initiation Upload region**
3. Update All
4. Submit button
5. Stop Payment(s) button

Associates assigned the **Administrator** role can review distributed invoices, processed invoices, and payment information totals for distributed quarterly invoice line items.

The upcoming **Payment** functionality instructions provide step-by-step guidance for **Payment Initiator** role associates to complete payment processing. **Administrator** role associates can benefit from these **Payment** functionality instructions to understand the payment process and steps needed to complete processing invoice line item payments by the “*Invoice Paid by 38th Calendar Day After Receipt*” as listed on the [Medicare Part D CGDP Calendar](#).

CGDP Portal Payments

The primary function of the Portal is to provide a central repository for Program-qualified PDE invoices to be distributed and paid by Program participants. In order to facilitate this processing, the Portal has the following roles and tabs or pages to assist users with reviewing, initiating payments, tracking initiated payments and receivables statuses and generating reports.

- The **Payments** tab provides payment capabilities, similar to an online bill pay function, to allow the selection of one (1), some, or all of the invoices distributed for payment processing. Payments may also be available for deferability, if the amounts fall below the systems deferred allowable amount. Invoices initiated for payment display in the Pending Transactions region until the nightly status update process is generated. Once this process completes, successfully processed initiated invoiced line items will move to the **Completed** tab for status tracking.

Note: The TPA recommends that invoices are paid prior to the payment due date or the “*Invoice Paid By 38th Calendar Day After Receipt*” date, not on the due date. Initiating payment prior to the due date will allow for error-free processing of Portal-initiated ACH payments.

Payments that error out on the due date are not considered as initiated and will require special handling between the Manufacturer and the TPA.

Payments that do not meet the “*Invoice Paid By 38th Calendar Day After Receipt*” due date, may be subject to civil money penalties (CMP) assessed by CMS as per the Manufacturer agreement.

- The **Completed** tab provides status information of previously initiated payments that have completed the nightly status update process successfully. Invoices initiated for payment will remain in a *Pending* status until the funds are successfully received in the payee’s bank account. At that time, the status of the invoiced line item will update to *Successful*. The *Deferred* status is only available if distributed invoices meet the system criteria for deferral and are processed as such by the Manufacturer.
- The **Receipts** tab provides a listing of invoiced line items due to be paid to Manufacturers by Program-participating Sponsors. Payments not initiated are listed as *Outstanding*. Payments that have been initiated list as a *Pending* status. A *Received* status notes that funds should be available in the payee’s bank account. A *Deferred* status means that invoices met the system criteria for deferral and have been processed as such by the Sponsor, and a *Failed* status notes that issues occurred with payment processing.
- The **Reporting** link provides a user with the ability to generate on-demand spreadsheets for invoice line items, receipts, or summary reports for overall totals by reporting period via the Portal. This functionality provides an additional method of printing all invoice and receipt information for a specific reporting period, where the Print Icon, located on each page of the Portal, only provides the ability to print the data visible on an active page.

Instructions for daily login access for the Portal are in the **CGDP Manufacturer Portal Information and Login Users Guide** located under [References](#) on the TPAdministrator.com website.

CGDP Portal Payments Tab

The **Payments** tab allows a user to review and process payment information for invoice line items by Sponsor contract number in the Portal. The available regions in the **Payments** tab differ for **Payment Initiator** role users versus **Administrator** role users.

Information provided displays the **Payment Initiator** role to describe the functionality of the **Payments** tab.

The screenshot shows the 'CGDP Payments' interface. At the top, there are navigation tabs: Home, Payments (selected), Completed, Receipts, Reports, and Disputes. Below the tabs, the page title is 'Manufacturer Portal CGDP Payments'. A search bar contains 'Contract Number: ALL', 'Corporate ID: XP1_8', and 'P Number: PT_8'. A dropdown menu shows 'Invoice Reporting Period: 201503' and 'Payments due: 12/09/2015'. On the right, a 'Payment Information' summary table is visible. The main area contains a table of invoice line items with columns for Contract Number, Invoiced Amount, Previous Deferred Amount, Payment/Failed Date, Initiate Payment, Defer, Failed, and EFT ID. Below this is a 'Pending Transactions' table with columns for Contract Number, Authorization Amt, Date Submitted, Payment Date, and Stop Payment. A 'Payment Initiation Upload' box is also present on the right side.

The **Payments** tab contains eight (8) regions.

1. **Tabbed region – Payments** displays the tab that is currently active and tabs that are available for selection.
2. **Invoice Reporting Period region** displays the specific quarter reporting period for invoice line items, in YYYYQQ format, based on the reporting period selected in the **Filter region** on the **Home** tab.
3. **Payments Due region** displays the date the invoice line items are due to Medicare Part D Sponsors, in MM/DD/YYYY format, based on the reporting period selected in the **Filter region** on the **Home** tab.
4. **Filter region – Payments** allows a user to search data listed by the defaulted Corporate ID.
5. **Payment Information region** displays the numerical totals of all invoice line items and the different categories that each invoice line item may qualify as at a specific point in time, in a tabular format. Invoice line items reclassify as payment functionality is processed.
6. **Payment Initiation region** displays invoice line items based on Contract Number and P Number data entered in the **Filter region – Payments**.
7. **Payment Initiation Upload region** allows a user to upload multiple paid invoice line items data for ease in completing the payment initiation functionality, instead of working with each individual Part D Sponsor invoice line item.
8. **Pending Transactions region** displays invoice line items that are pending payment.

The upcoming pages will describe each region and its associated functions.

Tabbed Region - Payments

The **Tabbed region** allows a user to select different activities to perform while accessing the system.

In this example, the **Payments** tab is active.

Invoice Reporting Period Region

This section of the **Payments** tab displays the specified reporting quarter, in YYYYQQ format, based on the reporting period selected in the **Filter region** on the **Home** tab.

In the example displayed, the distributed invoice line items appearing in the **Payment Initiation region** are associated with the reporting period listed in the **Invoice Reporting Period region**.

② Invoice Reporting Period: 201503

Payments Due Region

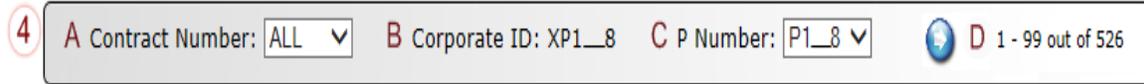

This section of the **Payments** tab displays the final payment due date of all invoice line items for a specified reporting period, based on the calculation of distributed invoice receipt date plus 38 calendar days.

In this example, the invoice line items displayed in the **Payment Initiation region** are due by the date listed in the **Payments Due region**.

③ Payments due: 10/09/2015

Filter Region – Payments

The **Filter region** on the **Payments** tab contains four (4) fields to assist a user with narrowing invoice line item search criteria.

4 A Contract Number: ALL ▾ B Corporate ID: XP1__8 C P Number: P1__8 ▾  D 1 - 99 out of 526

- A. Contract Number field allows a user to select specific contract numbers from the drop down list. The drop down list provides update capability to select another contract number with invoice line items within the same reporting period. The field defaults to ‘ALL’, which displays all contract numbers for the reporting period.
- B. Corporate ID column defaults to the Corporate ID utilized to access the system.
- C. P Number field displays the P number for invoice line items. This field defaults based on the distributed invoice selected on the **Home** tab. The drop down list provides update capability to select another P number with invoice line items within the same reporting period and assigned to the Corporate ID.
Note: In order to view a different reporting period, a user will need to return to the **Home** tab and select a distributed invoice with a different reporting period.
- D. Item Count column provides the number of invoice line items displayed on the current page out of the total number of invoices included for the reporting period. This field also contains a Next Page icon to alert the user to multiple pages of distributed invoices, if applicable.

Payment Information Region

The **Payment Information** region provides a summary view of activities that occur on the active **Payments** page.

This region provides up-to-date data regarding invoice line item activity in a two (2)-column table with eight (8) rows.

5

<u>Payment Information</u>		
A	Total Invoiced	\$137,938.98
B	Total Failed	\$141.00
C	Total Current Deferred	\$0.00
D	Total Previously Deferred	\$0.00
E	Total Pending	\$24,744.52
F	Total Successful	\$95,966.02
G	Total Available	\$17,087.44

- A. Total Invoiced field displays total dollar amount of invoice line items that require payment for the reporting period.
- B. Total Failed field displays the total dollar amount of invoice line items selected for payment that contained errors and did not complete the payment process for the reporting period.
- C. Total Currently Deferred field displays the total dollar amount of deferred invoice line items postponed from the current reporting period to the subsequent reporting period.
- D. Total Previously Deferred field displays the total dollar amount of previously deferred invoice line items postponed from prior reporting periods.
- E. Total Pending field displays the total dollar amount of invoice line items selected for payment initiation for the reporting period.
- F. Total Successful field displays the total dollar amount of invoice line items that have successfully paid and are no longer visible in the **Payment Initiation** or **Pending Transaction regions** of the **Payments** tab.
- G. Total Available field displays the total dollar amount of remaining invoice line items requiring payment.

Payment Initiation Region

The **Payment Initiation region** on the **Payments** tab displays information requested in the **Filter region** on the **Payments** tab, based on the data selected in the Contract Number or P Number columns.

Note: To generate Excel reports of the invoices listed on the **Payments** tab, use the **CGDP Portal Instructions – Reporting Link** instructions located in a subsequent section of this manual.

This region contains eleven columns that assist a user in processing invoice line items for payment.

Note: The amount automatically populates from the quarterly invoice and is not subject to modification.
- C. Previous Deferred Amount column displays deferred amounts from prior reporting period(s).
- D. Payment/Failed Date column displays a field that defaults to the current date for an invoice line item payment, in MM/DD/YYYY format.

The Payment/Failed Date field also contains a Calendar icon to allow a user to change payment dates to a future date. Users can either manually enter the date into the field, in MM/DD/YYYY format or utilize the Calendar icon to populate the updated payment date.

The Payment/Failed Date will default to the current date when the Initiate All functionality is used. It will display the date that a payment initiation failed payment processing.

Note: Selecting the Initiate All check box will **only** affect invoice line items displayed on the active page in the **Payment Initiation region**.

To process all invoice line items utilizing the Initiate All function a user must populate the Initiate All check box for the invoice line items displayed on the active page, update the Payment/Failed Date, if applicable and select the Submit button. The user must then re-select the Initiate All button for the new page of invoice line items displayed and select the Submit button. The Initiate All process should be repeated until the **Payment Initiation region** displays “*There are no more remaining invoice line items for the quarter.*”

Additional Notes:

- Removing the check mark from the Initiate All check box will remove all Initiate Payment check marks for invoice line items on the active page.
- Selecting the Next Page icon prior to selecting the Submit button will undo the U for the prior page.

F. Initiate Payment column allows the user to populate the check box with a check mark to allow the payment process to begin for an individual invoice line item.

G. Defer column provides check boxes available for selection when the Total Available amount in the **Payment Information region** totals less than the system-default allowable amount, currently designated as \$20.00 United States Dollars (USD).

The Portal provides the ability to defer payment of distributed invoice line items to a subsequent reporting period *if*:

- The Total Available amount field in the **Payment Information region** totals less than the Portal's defer-default allowable amount and
- A Manufacturer's banking ACH process prevents processing of the total amounts selected for payment initiation that fall below their specified minimum dollar ACH processing amount for a specific payment date.

The payment initiation process used by the Portal initiates a lump sum debit from Manufacturer bank accounts for the total amount of payments initiated per day, not individual line item debits.

Defer functionality becomes available if the amount listed in the Total Available field is less than the Portal's defer-default allowable amount, currently designated as \$20.00 USD.

For example, a Manufacturer's banking institution allows ACH processing for dollar amounts greater than \$15.00. If the Total Available field displays a total between \$15.00 and the system-default allowable amount, the items should not be deferred to the subsequent reporting period, even if the Defer check box is available.

The most important facts to know before deferring an invoice are:

- Manufacturers are responsible for verifying their banking institution's specific threshold for low-dollar ACH amounts permitted for processing.
- The Portal processes initiated payments as a lump sum debit from Manufacturer accounts for the total number of invoices selected to initiate on a specific day, not as individual invoice line items.

This example displays one (1) distributed payable invoice listed in the Invoiced Amount field that is less than the system-default allowable amount and this Manufacturer's ACH low-dollar amount threshold. The Defer column displays a check box for the invoice line item for deferral to the subsequent reporting period.

Payment Initiation Upload Region

The **Payment Initiation Upload region** provides a location for uploading manually created payment files for users working with large volumes of payments for a reporting period. This form contains two (2) fields to assist a user with locating and uploading payment file data. Instructions and reference documents for batch file formatting appear in the [Processing Payment Initiation Upload Batch Functionality](#) instructions.

The screenshot shows a form titled "Payment Initiation Upload" with a red circle containing the number "7" to its left. Below the title, there are two input fields: "A Browse..." and "B Upload".

- A. Browse... field allows a user to search for file data manually created to batch payment files for upload to system.
- B. Upload button provides a user one (1)-click functionality to upload batched payment file data to the system for processing.

Pending Transactions Region

The **Pending Transactions region** on the **Payments** tab displays information regarding reassigned invoice line items from the **Payment Initiation region** based on payment selection.

This form contains eight (8) fields used to display invoice line items selected for payment.

The screenshot shows a table titled "Pending Transactions" with a red circle containing the number "8" to its left. Above the table, there is a message "G Debit Failed Due To Debit Block." and a status indicator "H 1 - 5 out of 5". The table has five columns: "A Contract Number", "B Authorization Amt", "C Date Submitted", "D Payment Date", and "E Stop Payment".

At the bottom right of the table, there is a field "F Stop Payment(s)" with a blue button.

- A. Contract Number column displays the contract number.
- B. Authorization Amt. column displays the amount authorized, including amounts located in the Invoiced Amount and Previous Deferred Amount fields, as payment to the Sponsor.
- C. Date Submitted column displays the calendar date the invoice line item transferred from the **Payment Initiation region** to the **Pending Transactions region**, in MM/DD/YYYY format.
- D. Payment Date column displays the calendar date that initiates the request for withdrawal of funds from user's bank account, in MM/DD/YYYY format.

- E. Stop Payment column provides a check box available for selection for future dated payments. The Stop Payment check box allows a user to stop payment processing prior to actual payment.
The Stop Payment check box only displays for pending invoice line item payments that contain a payment date greater than the current calendar date.
- F. Stop Payment(s) button provides a user with one (1)-click functionality to process the selected invoices for stop payment. This activity will remove the invoice line item from the **Pending Transactions region** and reassign it to the **Payment Initiation region**.

This example displays highlighted payments that are not eligible for stop payment, due to the payment not being a future dated payment.

CGDP Portal Instructions –Payments Tab

Processing Invoice Payments

Manufacturers are required to process invoice line item payments on a quarterly basis 38 calendar days from receipt of distributed invoices using the Portal. The Portal allows a user to process payments for individual invoice line items with a default payment date of the current calendar day.

This instruction provides direction on the steps needed to process payments for individual invoice line items utilizing the current calendar day as the payment initiation date.

Note: Completion of this process is limited to Manufacturer associates assigned the **Payment Initiator** role.

1. Authorized end users will access the Portal to process invoice line item payments on a quarterly basis due within 38 calendar days from receipt of the distributed invoices. Instructions for daily login into the CGDP Portal are in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.
2. After successful login, the **Home** tab will appear. Select the applicable type of invoice from the drop down list located in the **Invoice Type** field.

The screenshot shows the 'Home' tab selected in the navigation menu. The main content area is titled 'Manufacturer Portal Coverage Gap Discount Program Home'. It features a search bar with fields for Corporate ID (XP1__6), Invoice Type (Quarterly), P Number (ALL), Reporting Period (ALL), and Status (ALL). Below the search bar is a table of invoice items:

Invoice Type	P Number	Reporting Period	Status	Select

Quarterly	P1__7	201502	Available	<input type="radio"/>
Quarterly	P1__1	201502	Available	<input type="radio"/>

On the right side, there is a welcome message and a legend for invoice statuses:

- Available:** Invoice is ready for payment initiations
- Failed:** One or more items has an unsuccessful payment attempt
- Incomplete:** One or more items have not been paid
- N/A:** No invoice due for payment. Receipt of funds due from Manufacturer or Sponsor.
- Pending:** All line items have been initiated successfully
- Successful:** All line items have been paid successfully

At the bottom right, there is a section for 'Reporting Periods with no invoice line items' with a filter by P Number (ALL) and Reporting Period (ALL). Below this is a table of reporting periods:

Processing Single Future Dated Invoice Payments

The Portal allows a user to select payment dates for invoice line items that differ from the default payment date of the current calendar day.

This instruction provides direction on the steps needed to process individual invoice line items for future calendar day payment processing.

Note: Completion of this process is limited to Manufacturer associates assigned the **Payment Initiator** role.

1. Authorized end users will access the Portal to select payment dates for invoice line items that differ from the default payment date of the current calendar day. Instructions for daily login into the Portal are in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.
2. After successful login, the **Home** tab will appear. Select the applicable type of invoice from the drop down list located in the **Invoice Type** field.

Initiate All Payment Processing Functionality and Future Date Processing

Manufacturers can utilize the Initiate All functionality to process payment initiation for multiple invoice line items loaded to the Portal. The Initiate All function provides the capability to select only invoice line items located on the active page in the **Payment Initiation region** to initiate payment processing on the current date. The Initiate All function also allows for updating payment initiation processing dates to a future date for any available invoice line item(s) displayed in the active **Payment Initiation region**.

This instruction provides direction on utilizing the Initiate All functionality and the available features that are included for processing payment initiation.

Note: Completion of this process is limited to Manufacturer associates assigned the **Payment Initiator** role.

1. Authorized end users will access the Portal to process payment initiation for multiple invoice line items loaded to the Portal. Instructions for daily login into the Portal are in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under [References](#) on the [TPAdministrator.com](#) website.

Message from webpage

By checking this box, you are initiating payments for all the P Numbers that are listed on this page. Please do not forget to set the payment dates if you want to postpone certain payments.

OK Cancel

6. After reading the message, select the appropriate button to continue. Selection of the OK button accepts the informational message and continues with the payment initiation process.

7. The **Payment Initiation region** displays the Initiate Payment column's check boxes with check marks populated for invoice line items available only on the active page.

The screenshot displays the 'Manufacturer Portal CGDP Payments' interface. At the top, there are navigation tabs: Home, Payments (selected), Completed, Receipts, Reports, and Disputes. The main header shows 'Invoice Reporting Period: 201502' and 'Payments due: 10/09/2015'. Below this, there are filters for Contract Number (ALL), Corporate ID (XP1__6), and P Number (P1__1). A table of invoice line items is shown with columns: Contract Number, Invoiced Amount, Previous Deferred Amount, Payment/Failed Date, Initiate Payment (checkboxes), Defer, Failed, and EFT ID. The 'Initiate Payment' column contains checkmarks for all items. To the right, a 'Payment Information' box shows totals for Invoiced, Failed, Deferred, Pending, Successful, and Available amounts. Below that is a 'Payment Initiation Upload' section with a 'Browse...' button and an 'Upload' button. At the bottom, there is a 'Pending Transactions' section with a table header and a 'Stop Payment(S)' button.

Note: The Initiate All check mark selects *only* invoice line items that appear on the active **Payment Initiation region** page.

The population of the Initiate All check mark does **NOT** select all invoice line items for the reporting period.

In order to utilize the Initiate All functionality for all invoice line items, select each page in the **Payment Initiation region** separately, populate the Initiate All check box, and select the Submit button prior to moving to the next page in the region. Not performing the submission will delete all data entered on the current page.

8. The selection of the Initiate All check box provides the ability to select only displayed invoice line items for payment processing with the payment initiation date set as the current date. If it is determined that all invoice line items displayed should process for payment on the current date, select the Submit button to initiate the payment process.

If it is determined that invoice line items cannot be processed for the current date, the Initiate All functionality provides the ability to update the payment initiation date to a future calendar date.

- To update all invoice line items, use the Update All check box and field located below the **Payment Initiation region**.
- To update individual invoice line items, use the calendar icon located on the specific invoice line.

- To update all payment initiation dates to a future date different from the current business date displayed in the Payment/Failed Date field, select the calendar icon to the right of the Update All check box, located below the **Payment Initiation region**. This action expands a calendar that allows selection of a future date for the payment initiation to begin. Select the applicable date then populate the Update All check box to update the date only for the payments on the active page.

The screenshot shows the 'Manufacturer Portal' for 'CGDP Payments'. The 'Payments' tab is active. The 'Payment/Failed Date' column in the main table is highlighted with a red box, and a calendar is open showing 'June 2016'. The date '21' is selected. Below the calendar, the 'Update All' checkbox is checked, and the date '06/21/2016' is entered in the adjacent field. The 'Submit' button is visible.

You have now completed processing invoice line items utilizing the **Initiate All** functionality.

Processing Stop Payments

The Portal allows Manufacturers to stop the payment processing of future dated invoice line items prior to the completion of the payment process.

The **Stop Payment** process is only available for pending invoice line item payments that contain a payment date greater than the current calendar date. Selecting a pending invoice line item payment for stop payment will reassign the stopped invoice line item to the **Payment Initiation region** for reprocessing.

This instruction provides direction on the steps needed to process stop payments for pending invoice line item payments.

Note: Completion of this process is limited to Manufacturer associates assigned the **Payment Initiator** role.

1. Authorized end users will access the Portal to stop the payment processing of future dated invoice line items prior to the completion of the payment process. Instructions for daily login into the Portal are in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under [References](#) on the [TPAdministrator.com](#) website.
2. After successful login, the **Home** tab will appear. Select the applicable type of invoice from the drop down list located in the **Invoice Type** field.

Payment Initiation Upload

You have now completed a stop payment of an invoice line item.

Processing Payment Initiation Upload Batch Functionality

Manufacturers can utilize the **Payment Initiation Upload** functionality to select multiple invoice line items for payment processing in one (1) batch text file versus utilizing individual invoice line item processing or the Initiate All payment functionality. A batch text file is a creation of a semi-colon delimited text file, which is loaded to the Portal for processing. Once the upload is completed, results of the batch text file upload are available for review via the **Reports tab – Batch** functionality.

This instruction provides direction on processing invoice batch upload functionality.

Note: Completion of this process is limited to Manufacturer associates assigned the **Payment Initiator** role.

1. Authorized end users will access the Portal to use the invoice batch upload functionality to initiate invoices due for payment on a quarterly basis 38 calendar days from receipt of distributed invoices. Instructions for daily login into the Portal are in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.
2. After successful login, the **Home** tab will appear. Select the applicable type of invoice from the drop down list located in the **Invoice Type** field.

5. To view invoice line items in an Excel spreadsheet format, there are two (2) functions that assist with displaying invoice information in Excel formats, the *Print* icon and the *Reporting* link. This instruction demonstrates the *Print* icon output. Instructions for the *Reporting* link are in the *Accessing the Reporting Link* instructions in this manual.

The *Print* icon allows a user to view formatted information regarding only the invoice line items displayed on the active page in the **Payments** tab in a Microsoft Office Excel spreadsheet format.

Note: The *Print* icon will only print *up to 99 invoice line items* in an excel file. This is the maximum amount of invoice line items that can display on an active page in the **Payments** tab. If a reporting period contains more than 99 distributed invoice line items, a user will have to access each **Payments** page of invoices listed and select the *Print* icon for each active page.

To print all distributed invoice line items for a specific reporting period on the **Payments** tab, utilize *Accessing the Reporting Link* instructions in this manual.

The Excel spreadsheet generated by the *Print* icon contains three (3) tabs.

- Invoice line item data corresponding to the active **Payment Initiation region** page displays on the CGDP Payments tab of the spreadsheet.
- Invoice line item data corresponding to the active **Pending Transactions region** page displays on the Pending Transactions tab of the spreadsheet.
- Summary information corresponding to data visible in the **Payment Information region** displays on the Total Payment Information tab of the spreadsheet.

The Microsoft Excel spreadsheet allows a user to view all invoice line items displayed on the active **Payments Initiation region** page (up to 99 invoices per page) without requiring a user to scroll through the data. It provides a format that allows users the ability to massage invoice line item data required in creating Batch text files.

In order to view all invoices in a spreadsheet format, the *Reporting* link functionality allows a user to print all invoice line items for a specific reporting period. To utilize the *Reporting* link to print all payable invoice line items on the **Payments** tab or receivable invoice line items on the **Receipts** tab, refer to the *Accessing the Reporting Link* instructions in this manual.

6. Select one (1) of the decision buttons in the message that appears at the bottom of the screen.
 - Open to view the active **Payment Initiation region** data in an Excel file format
 - Save to save the active **Payment Initiation region** data in Excel file format
 - Cancel to exit the decision message

This example displays the selected Open button.

7. After selecting the Open button, the file information for the active **Payment Initiation region** page will display in Microsoft Excel.

This example displays the invoice line items only found on the active page of the **Payment Initiation region** with the current date displayed in the Payment/Failed Date column.

Note: The Print icon will download and display invoice line items for only the active **Payment Initiation region** page. To view all invoice line items for a reporting period, refer to the *Accessing the Reporting Link* instruction for creating invoice reports.

Use the Microsoft Excel file(s) to determine which of the invoice line items to include in the batch text file.

8. For each invoice line item to be included in the batch text file, collect this information:
 - Header Record:
 - Corporate ID
 - Reporting Period
 - Detail Record(s):
 - P Number
 - Contract Number
 - EFT ID information
 - Payment date
 - Defer Invoice (Yes or No)

Once the information is collected for each invoice line item, create batch lines using information referenced in [Appendix C: Manufacturer Payment Initiation Upload Batch Input Requirements](#) for assistance with formatting batch text files.

Batch Header Line consists of 'HDR' to notate header line followed by a semi-colon (;), Corporate ID followed by a semi-colon (;) and Reporting Period, in YYYYQQ format.

Example of Batch Header line:

- HDR;XP9999; YYYYQQ

Batch Detail Line consists of 'DET' to notate detail line followed by a semi-colon (;), P number followed by a semi-colon (;), contract number followed by a semi-colon (;), EFT ID information, in CGYYQQ9999H9999 format, followed by a semi-colon (;), Payment date, in CYYMMDD format, followed by a semi-colon (;), 'N' for not Deferred or 'Y' for Deferred invoice line items.

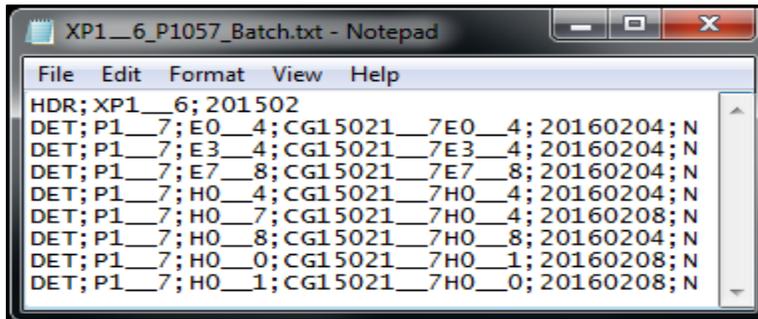

Example of a non-deferred invoice line item:

- DET;P9999;H9999;CGYYQQP9999H9999;CYYMMDD;N

Example of a deferred invoice line item:

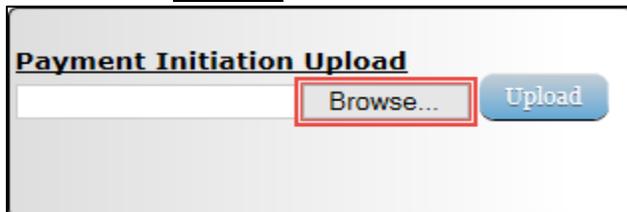

- DET; P9999;H9999;CGYYQQP9999H9999;CYYMMDD;Y

This example displays a batch text file containing one (1) header record and multiple invoice line item records.

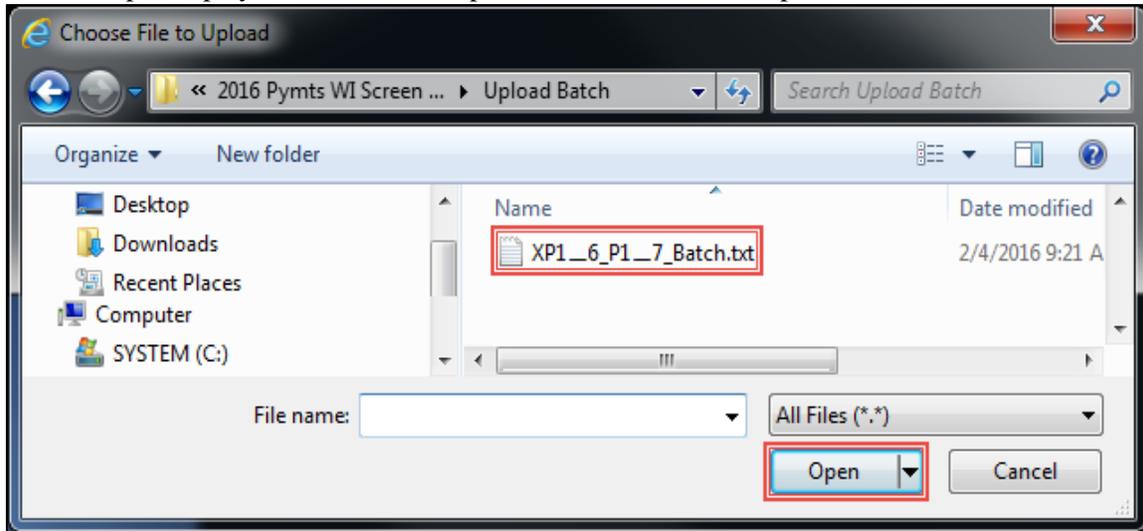

Note: Creation of batch text files can only contain invoice line items for the same reporting period.

9. Save the batch text file with all selected invoice line items using a Manufacturer-determined file naming convention.
10. On the **Payments** tab, select the **Payment Initiation Upload region**.
11. Select the *Browse...* button to search for the batch text file to be loaded to the Portal.

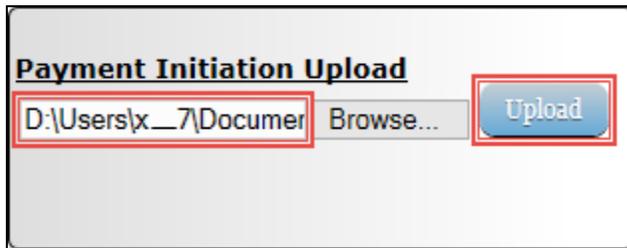

12. Locate and select the batch text file to load to the Portal and select the *Open* button to upload the text file to the Portal.

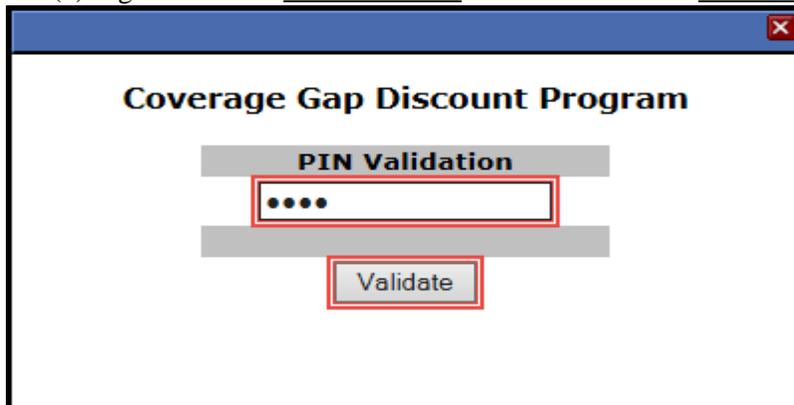

This example displays the search for a specific batch text file for upload to the Portal.

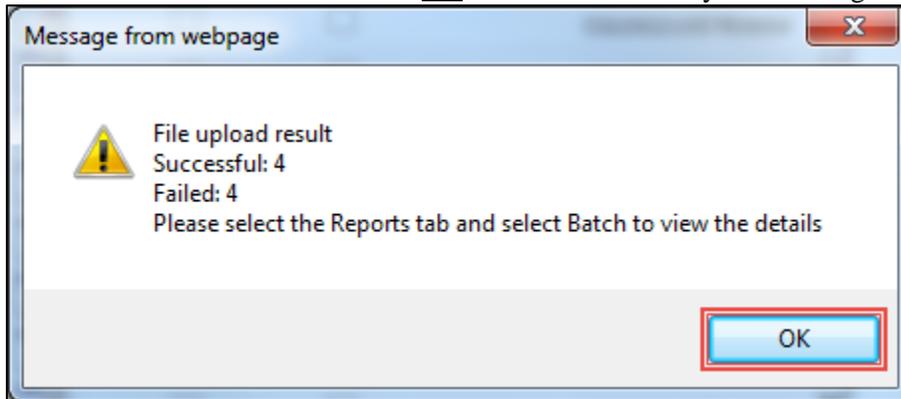

13. In the **Payment Initiation Upload** region, the computer location of the batch text file populates the field to the left of the *Browse...* button. Select the *Upload* button to load the text file to the Portal.

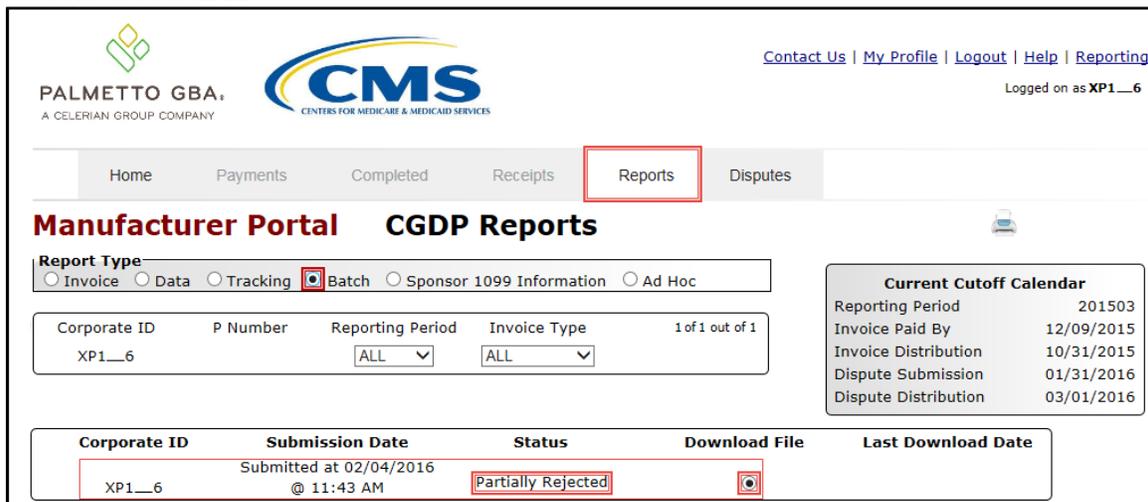

14. To process the submission of the payment initiation file, enter the **Payment Initiator** role four (4)-digit PIN in the *PIN Validation* form and select the *Validate* button.

15. After the Payment Initiation Upload process completes, the Portal will display a system-generated message providing information of the success/failure of invoice line items included in the batch text file. Select the OK button to close the system message.

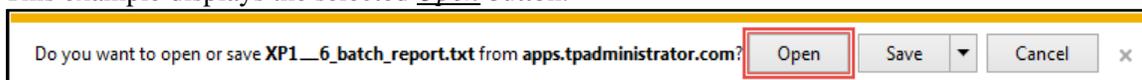

16. To review batch text files, select the **Reports** tab and populate the Batch radio button for the selected batch file.

17. Select one (1) of the decision buttons in the message that appears at the bottom of the screen.

- Open to view the data in text file format
- Save to save the data in text file format
- Cancel to exit the decision message

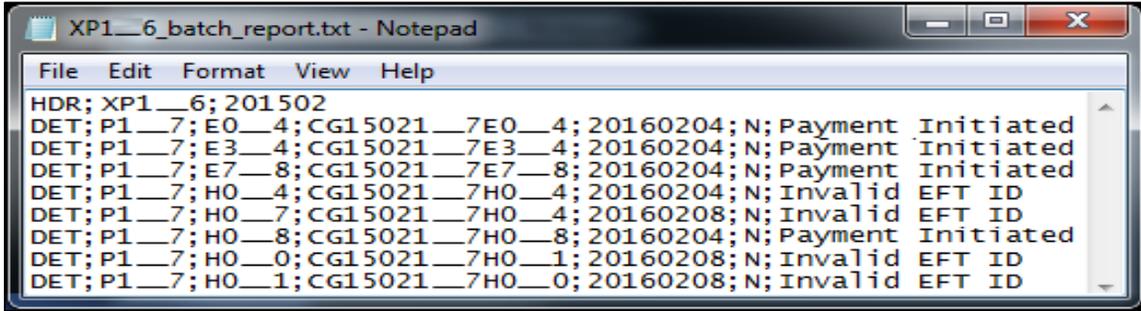

This example displays the selected Open button.

18. Review the downloaded batch text file for processing messages following each batch file line item.

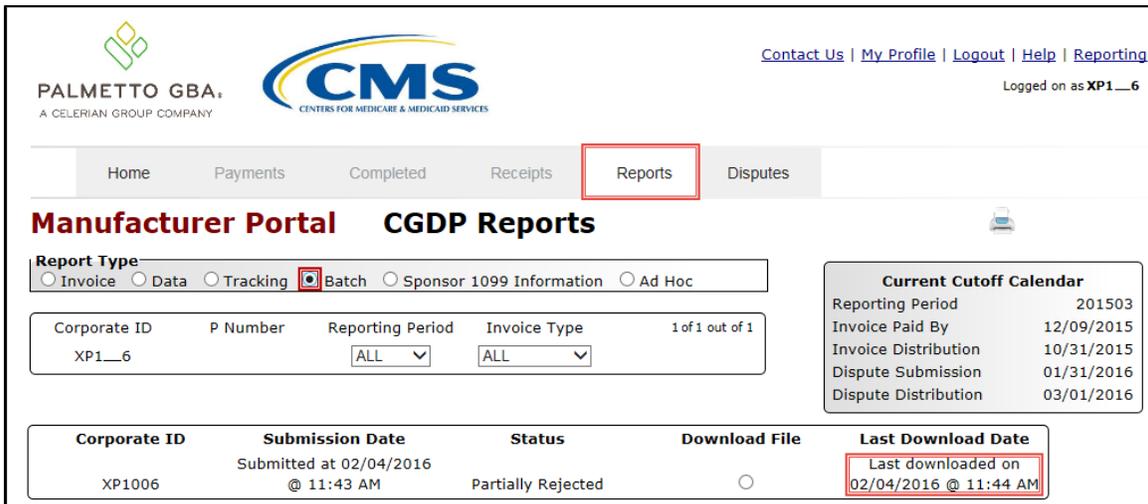

For failed batch file items each error should be reviewed and updated in a modified **Payment Initiation Upload** batch text file to correct the errors prior to uploading the batch text file to the Portal.

This example displays the downloaded batch text file containing multiple lines with error messages listed at the end of each failed line and multiple lines that processed successfully.

Note: Refer to the [Help](#) link located in the top right of any Portal tab or refer to [Appendix B: Error Message Descriptions](#) listing for system code descriptions displayed in batch reports.

19. Return to the **Reports** tab to review the Last Download Date column populated with the most recent date and time of download for the file.

20. To review the successfully initiated invoice line item payments, select the **Payments** tab and review the **Pending Transactions region** and the **Payment Information region**.

The screenshot displays the 'Payments' section of the CGDP Manufacturer Portal. At the top, there are navigation links: 'Contact Us | My Profile | Logout | Help | Reporting' and a login status 'Logged on as XP1...6'. Below the navigation is a menu with 'Home', 'Payments' (highlighted), 'Completed', 'Receipts', 'Reports', and 'Disputes'. The main heading is 'Manufacturer Portal CGDP Payments'. Below this, the 'Invoice Reporting Period' is set to '201502' and 'Payments due' is '10/09/2015'. There are filters for 'Contract Number' (set to 'ALL'), 'Corporate ID' (XP1...6), and 'P Number' (P1...7), with a count of '1 - 99 out of 521'. An 'Initiate All' checkbox is present. The main table lists invoice items with columns: 'Contract Number', 'Invoiced Amount', 'Previous Deferred Amount', 'Payment/Failed Date', 'Initiate Payment', 'Defer', 'Failed', and 'EFT ID'. Below the table is an 'Update All' button and a 'Submit' button. A 'Pending Transactions' section shows a table with columns: 'Contract Number', 'Authorization Amt', 'Date Submitted', 'Payment Date', and 'Stop Payment'. To the right, a 'Payment Information' summary shows: 'Total Invoiced \$35,221.00', 'Total Failed \$0.00', 'Total Current Deferred \$0.00', 'Total Previously Deferred \$0.00', 'Total Pending \$846.95', 'Total Successful \$0.00', and 'Total Available \$34,374.05'. Processing Deferred Invoices

The Portal provides the ability to defer payment of distributed invoice line items to a subsequent reporting period *if*:

- The Total Available amount field in the **Payment Information region** totals less than the Portal's system-default allowable amount and
- A Manufacturer's banking ACH process prevents processing of the total amounts selected for payment initiation that fall below their specified minimum dollar ACH processing amount for a specific payment date.

The payment initiation process used by the Portal initiates a lump sum debit from Manufacturer bank accounts for the total amount of payments initiated per day, not individual line item debits.

Defer functionality becomes available if the amount listed in the Total Available field is less than the Portal's system-default allowable amount, currently designated as \$20.00 USD.

The instructions provided present different scenarios for how the Defer process functionality works.

The most important facts to know before deferring an invoice:

- All Manufacturers are responsible for verifying their banking institution's specific threshold for low-dollar ACH amounts permitted for processing.
- The Portal processes initiated payments as a lump sum debit from Manufacturer accounts for the total number of invoices selected to initiate on a specific day, not as individual invoice line items.

Defer Eligible Invoices – Total Available Is Less Than \$20.00 USD

This instruction provides direction on when to use the defer process.

Instruction Scenario:

Invoices distributed for a reporting period display a Total Available amount less than the Portal’s system-default allowable amount, currently set at \$20.00 USD. The Defer column displays check boxes for all available distributed invoice line items.

Manufacturer’s banking institution allows ACH processing for dollar amounts greater than \$10.00 USD. In this scenario, the Total Available amount of all invoices is less than this Manufacturer’s bank ACH minimum threshold of \$10.00 USD, so all invoice line items are eligible for deferment.

Remember: Just because the Defer check box is available does not mean it should be used. Manufacturers are responsible for verifying with their banking institution the specific threshold for low-dollar ACH amounts permitted for processing.

Note: Completion of this process is limited to Manufacturer associates assigned the Payment Initiation role.

1. Authorized end users will access the Portal to review invoices due for payment and use the deferment process, if applicable. Instructions for daily login into the Portal are in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under References on the TPAdministrator.com website.
2. After successful login, the **Home** tab will appear. Select the specific type of invoice from the drop down list located in the Invoice Type field.

The screenshot displays the 'Manufacturer Portal Coverage Gap Discount Program Home' interface. At the top, there are navigation links (Contact Us, My Profile, Logout, Help, Reporting) and a user login status (Logged on as XP1__7, Test Environment). Below the navigation is a menu with 'Home' highlighted. The main content area includes a search bar with filters for Corporate ID (XP1__7), Invoice Type (Quarterly), P Number (ALL), Reporting Period (ALL), and Status (ALL). A table below shows a single invoice item: Quarterly, P1__7, 201502, Available, and a Select checkbox. To the right, a legend defines status codes: Available (ready for payment), Failed (unsuccessful attempt), Incomplete (not paid), N/A (no invoice due), Pending (initiated successfully), and Successful (paid successfully). At the bottom right, a section titled 'Reporting Periods with no invoice line items' shows a table with columns for P Number and Reporting Period, listing three entries: P1__7 (201601), P1__7 (201504), and P1__7 (201503).

- Populate the Select radio button for the applicable reporting period then select the **Payments** tab to view the invoice line items associated with the selected reporting period.

Invoice line items will no longer be available for deferment if the invoice line item(s) remains unprocessed for payment for 16 reporting periods. Invoice line item(s) in this status will require separate payment processing between the two (2) entities.

7. To process the submission of the deferred payment, enter the **Payment Initiation** role four (4)-digit PIN in the **PIN Validation** form and select the **Validate** button.

The screenshot shows a window titled "Coverage Gap Discount Program". Inside the window, there is a section labeled "PIN Validation". Red boxes highlight the input field and the "Validate" button.

The system will display a Message from Webpage after selecting the **Submit** button.

Note: Selecting the **OK** button to defer the invoice line item to the subsequent period creates an irreversible event.

If it is determined that the selected line is not the correct deferrable invoice to process, utilize the **Cancel** button to exit the message screen and update the invoice line item.

8. Select **OK** to defer the selected invoice line item.

9. Once the defer process is complete, review the **Payment Information region's Total Current Deferred** field for updated amounts.

- Successful** Funds should now be available in the payee's account

You have now completed processing deferred invoice line items.

Non-Eligible Defer – Total Available Greater Than \$20.00 USD

This instruction provides direction on when the deferment process is not applicable.

Instruction Scenario:

Invoices distributed for a reporting period display a Total Available amount greater than the Portal’s system-default allowable amount, currently set at \$20.00 USD. The Defer check box does not display for any distributed invoice line item *if* the Total Available amount is greater than the Portal’s \$20.00 USD default amount.

In this scenario, the Total Available amount of all invoices is greater than the Portal’s default amount, so all invoice line items are eligible for payment processing and not deferment.

Remember: Manufacturers are responsible for verifying with their banking institution the specific threshold for low-dollar ACH amounts permitted for processing.

Note: Completion of this process is limited to Manufacturer associates assigned the Payment Initiation role.

1. Authorized end users will access the Portal to process payments for invoices not eligible for deferment. Instructions for daily login into the Portal are in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.
2. After successful login, the **Home** tab will appear. Select the specific type of invoice from the drop down list located in the Invoice Type field.

The screenshot displays the CMS Coverage Gap Discount Program Home page. At the top, there are logos for Palmetto GBA and CMS, along with navigation links and a user login status. The main navigation bar includes 'Home', 'Payments', 'Completed', 'Receipts', 'Reports', and 'Disputes'. Below this, the page title is 'Manufacturer Portal Coverage Gap Discount Program Home'. There are several filter boxes: 'Corporate ID' (XP1___7), 'Invoice Type' (Quarterly), 'P Number' (ALL), 'Reporting Period' (ALL), and 'Status' (ALL). A table below these filters shows one invoice item with 'Quarterly' type, 'P1___7' number, '201502' reporting period, and 'Available' status. On the right side, there are three informational boxes: a welcome message, a list of payment statuses (Available, Failed, Incomplete, N/A, Pending, Successful) with their descriptions, and a section for 'Reporting Periods with no invoice line items' which includes a filter and a table of P Numbers and Reporting Periods.

- Populate the **Select** radio button for the applicable reporting period then select the **Payments** tab to view the invoice line items associated with the selected reporting period.

- On the **Payments** tab, review the **Payment Information** region's **Total Available** field to note the total dollar amount of available invoices.

- Review the invoice line items in the **Payment Initiation region** and notice that the Defer check box is not available when the **Payment Information region's Total Available** field displays an amount greater than \$20.00 USD, even when invoice line item amounts are less than the Portal's system-default allowable amount.

Prior Reporting Period Defer – N/A Payable Invoices Distributed for Reporting Period

This instruction provides direction on how to process previously deferred items when the current reporting period has no payable invoice activity available.

Instruction Scenario:

Invoices deferred from a prior reporting period require additional processing. The current reporting period contains only distributed invoices for receipt from Sponsors. No payable invoices are available.

In this scenario, the prior period deferred items require processing in the current period; however, the current period does not have any payable invoices. The Total Available amount of all invoices is less than this Manufacturer’s bank ACH minimum threshold of \$10.00 USD, so all invoice line items are eligible for deferment

Remember: Manufacturers are responsible for verifying with their banking institution the specific threshold for low-dollar ACH amounts permitted for processing.

Note: Completion of this process is limited to Manufacturer associates assigned the Payment Initiation role.

1. Authorized end users will access the Portal to process previously deferred items when the current reporting period has no payable invoice activity available. Instructions for daily login into the CGDP Portal are in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under [References](#) on the [TPAdministrator.com](#) website.
2. After successful login, the **Home** tab will appear. Select the specific type of invoice from the drop down list located in the Invoice Type field.

The screenshot shows the 'Manufacturer Portal' for the 'Coverage Gap Discount Program'. The 'Home' tab is active. The main content area includes a filter section with the following data:

Corporate ID	Invoice Type	P Number	Reporting Period	Status
XP1___4	Quarterly	ALL	ALL	ALL

Below the filters is a table of invoice items:

Invoice Type	P Number	Reporting Period	Status	Select
Quarterly	P1___4	201503	N/A	<input type="radio"/>
Quarterly	P1___4	201502	Successful	<input type="radio"/>

The right sidebar contains a legend for invoice statuses:

- Available:** Invoice is ready for payment initiations
- Failed:** One or more items has an unsuccessful payment attempt
- Incomplete:** One or more items have not been paid
- N/A:** No invoice due for payment. Receipt of funds due from Manufacturer or Sponsor.
- Pending:** All line items have been initiated successfully
- Successful:** All line items have been paid successfully

At the bottom of the sidebar, there is a section for 'Reporting Periods with no invoice line items' with filter options for P Number and Reporting Period.

- Populate the **Select** radio button for the applicable reporting period then select the **Payments** tab to view the invoice line items associated with the selected reporting period.

Manufacturers are responsible for verifying with their banking institution the specific threshold for low-dollar ACH amounts permitted for processing. Initiated invoices are processed as a lump sum debit, not individual line items. If the Manufacturer's banking institution can process the amount displayed for the Total Available field, the Manufacturer **should not** utilize the Defer process.

- Populate the Defer column's check boxes with a check mark to select all invoice line item(s) for deferment and select the Submit button, located at the bottom right of the **Payment Initiation region**.

Note: Selecting Defer is **only** applicable when the Total Available field's total is less than \$20.00 USD **and** if the Manufacturer's bank ACH process prevents processing total amounts selected for payment initiation that fall below their bank's specified minimum ACH processing amount.

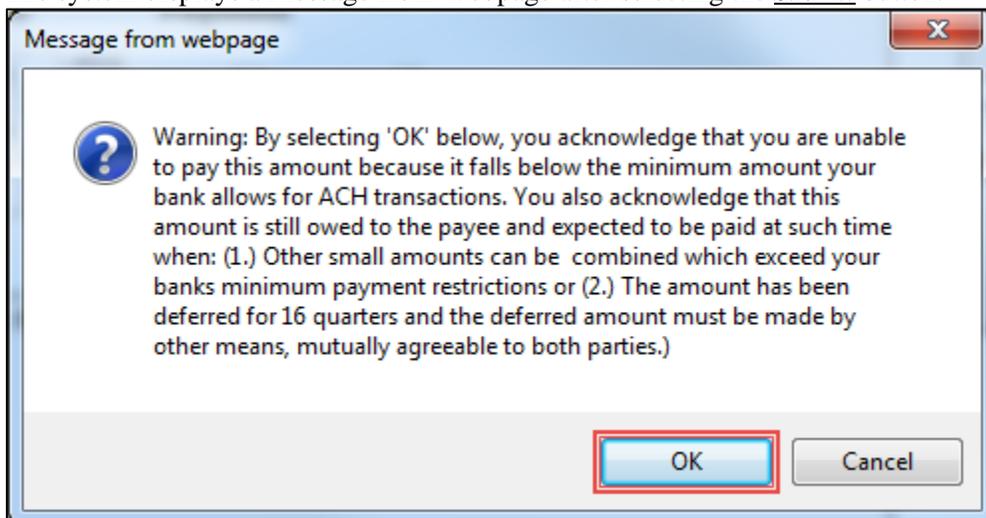

Invoice line items will no longer be available for deferment if the invoice line item(s) remains unprocessed for payment for 16 reporting periods. Invoice line item(s) in this status will require payment processing between the two (2) entities.

7. To process the submission of the deferred payment, enter the **Payment Initiation** role four (4)-digit PIN in the **PIN Validation** form and select the **Validate** button.

The screenshot shows a web browser window titled "Coverage Gap Discount Program". Inside the window, there is a "PIN Validation" section. It features a text input field containing four dots, representing a masked PIN. Below the input field is a button labeled "Validate". Both the input field and the "Validate" button are highlighted with red rectangular boxes.

The system displays a Message from Webpage after selecting the **Submit** button.

The screenshot shows a "Message from webpage" dialog box. It contains a warning icon (a question mark in a blue circle) followed by the text: "Warning: By selecting 'OK' below, you acknowledge that you are unable to pay this amount because it falls below the minimum amount your bank allows for ACH transactions. You also acknowledge that this amount is still owed to the payee and expected to be paid at such time when: (1.) Other small amounts can be combined which exceed your banks minimum payment restrictions or (2.) The amount has been deferred for 16 quarters and the deferred amount must be made by other means, mutually agreeable to both parties.)". At the bottom of the dialog box, there are two buttons: "OK" and "Cancel". The "OK" button is highlighted with a red rectangular box.

Note: Selecting the **OK** button to defer the invoice line item to the subsequent period creates an irreversible event.

If it is determined that the selected line is not the correct deferrable invoice to process, utilize the **Cancel** button to exit the message screen and update the invoice line item.

8. Select **OK** to defer the selected invoice line item.

9. Once the defer process is complete, review the **Payment Information** region's Total Previously Deferred and Total Available fields for updated amounts.

Prior Reporting Period Defer – No Invoices Distributed for Current Reporting Period

This instruction provides direction on how to process previously deferred items when the current reporting period has no invoice activity available.

Instruction Scenario:

Invoices deferred from a prior reporting period require additional processing. The current reporting period did not receive distributed invoices available for payment or receipt. The Portal updates the prior reporting period status to Incomplete as well as updating the reporting period line item with a red font. Users are required to review any reporting periods with statuses other than Successful and perform processing as necessary to remain in program compliance.

In this scenario, the prior period deferred items require processing, even though the current period has no invoices distributed for payment or receipt. The Total Available amount of all invoices is less than this Manufacturer's bank ACH minimum threshold of \$10.00 USD, so all invoice line items are eligible for deferment.

Remember: Manufacturers are responsible for verifying with their banking institution the specific threshold for low-dollar ACH amounts permitted for processing.

2. **Invoice Reporting Period region** displays the specified quarterly reporting period for the invoice line items based on the reporting period selected in the **Home Filter region**, in YYYYQQ format.
3. **Filter region – Completed** allows a user to search data listed by the defaulted Corporate ID.
4. **Completed Payment Information region** displays the numerical totals of all invoice line items and the different categories that each invoice line item may qualify as at a specific point in time. Invoice line items reclassify as they process through the system.
5. **Completed Transactions region** displays results based on data entered in the **Completed Filter region**.
6. **Status Definitions region** provides definitions of the statuses displayed in the **Completed Transaction region**.

The upcoming pages will describe each region and its associated functions.

Tabbed region – Completed

The **Tabbed region** allows a user to select different activities to perform while accessing the system. This example displays the active **Completed** tab.

Invoice Reporting Period Region

This section of the **Completed** tab displays the specified reporting quarter, in YYYYQQ format, based on the reporting period selected in the **Filter region** on the **Home** tab.

In this example, the completed invoice line items appearing in the **Filter Results region** on the **Completed** tab are associated with the reporting period listed in the **Invoice Reporting Period region**.

This region also contains a footnote regarding the data displayed in the **Invoice Reporting Period region**. This footnote provides a user instruction on how to review completed payments for a different reporting period.

To view completed payments for a different reporting period, return to the Home tab and select the radio button line item that contains the desired reporting period.

Filter Region – Completed

The **Filter region** on the **Completed** tab contains four (4) fields to assist a user with narrowing invoice line item search criteria.

- A. Contract Number field allows a user to select specific contract numbers for completed invoice line items.
Note: this field's drop down menu will only allow update to contract numbers that have completed invoice line items in the same reporting period. The field defaults to 'ALL', which displays all contract numbers for the reporting period.
- B. Corporate ID column defaults to the Corporate ID utilized to access the system.
- C. P Number field displays the P number for completed invoice line items. This field defaults based on the distributed invoice selected on the **Home** tab. This field's drop down menu provides update capability to select another P number from those assigned to the Corporate ID for the same reporting period.
- D. Item Count column displays the number of invoice line items displayed on the current page of the total number of invoices included for the reporting period.

Payment Information Region

The **Payment Information region** provides a summary view of activities that occur on the **Completed** tab.

This region provides up-to-date data regarding completed invoice line item activity in a two (2)-column table with seven (7) rows.

4

Payment Information for P1 __7		
A	Total Invoiced	\$4,033.84
B	Total Received	\$3,958.60
C	Total Deferred	\$0.00
D	Total Pending	\$75.24
E	Total Failed	\$0.00
F	Total Outstanding	\$0.00

- A. Total Invoiced displays total dollar amount of distributed invoice line items for the reporting period.
- B. Total Received displays the total dollar amount of invoice line items that have successfully processed. The status of Successful displays in the **Completed Transaction region** in the Status field.
- C. Total Deferred displays the total dollar amount of invoice line items deferred to the subsequent reporting period.
- D. Total Pending displays the total dollar amount of invoice line items selected for payment for the reporting period.
- E. Total Failed displays the total dollar amount of invoice line items selected for payment that contained errors and did not complete the payment process for the reporting period. Failed invoice line items appear on the **Payments** tab in the **Payment Initiation region** in the Failed field.
- F. Total Outstanding displays the total dollar amount of remaining invoice line items requiring processing.

Completed Transactions Region

The **Completed Transactions region** provides a detail view of successful payments or deferred invoices.

This region contains five (5) columns that provide up-to-date data regarding paid invoice activity.

5	A <u>Contract Number</u>	B <u>Invoiced Amount</u>	C <u>Payment Date</u>	D <u>Status</u>	E <u>EFTID</u>
	S5__0	\$75.24	07/25/2017	Pending	CG16041__7S5__0

	H0__2	\$75.81	07/22/2017	Successful	CG16041__7H0__2

- A. Contract Number column displays the contract number.
- B. Invoiced Amount column displays the invoice line item amounts due to the sponsor.
- C. Payment Date column displays information regarding the status of the payment.
 - Displays calendar date, in MM/DD/YYYY format, for the date that initiates the request for withdrawal or deferment of scheduled funds from user's bank account.
- D. Status column provides explanations of each of the statuses that may display regarding completed payments.
- E. EFT ID column displays EFT identifying information in the specified format of CG for Coverage Gap; YYQQ for the reporting period, 9999 for the P number without the P, and Z9999 for the contract number. Example: CG15029999Z9999.

Status Definitions Region

The **Status Definitions region** on the **Completed** tab provides explanations of each of the statuses that may display in the **Completed Transactions region**.

6	Possible Statuses
Deferred	Payer has determined that the amount owed is below their bank's ACH minimums
Pending	Payer initiation was successful. The debiting process, holding period and crediting process still remain
Successful	Funds should now be available in the payee's account

CGDP Portal Instructions – Completed Tab

Reviewing Invoices on the Completed Tab

Manufacturers can utilize the Portal to view the status of invoice line items that have completed processing. The **Completed** tab provides Manufacturers with the capability to view the status of Quarterly invoices, such as deferred, pending, or successful Quarterly invoice payments.

This instruction provides direction on accessing and reviewing the **Completed** tab and its contents in reference to Quarterly invoices.

1. Authorized end users will access the Portal to view the status of quarterly invoice line items that have completed processing. Instructions for daily login into the Portal are in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under [References](#) on the [TPAdministrator.com](#) website.
2. After successful login, the **Home** tab will appear. Select the applicable type of invoice from the drop down list located in the **Invoice Type** field.

The screenshot shows the 'Completed' tab in the CGDP Manufacturer Portal. At the top, there are logos for Palmetto GBA and CMS, along with navigation links and a login status 'Logged on as AJ23'. The 'Home' tab is selected in the navigation bar. Below the navigation bar, the page title is 'Manufacturer Portal Coverage Gap Discount Program Home'. There are filter fields for Corporate ID (XP1__7), Invoice Type (Quarterly), P Number (ALL), Reporting Period (201604), and Status (ALL). A table displays two invoice line items, both with a 'Successful' status. To the right, there are informational messages and a legend for invoice statuses: Available, Failed, Incomplete, N/A, Pending, and Successful. At the bottom, there is a section for 'Reporting Periods with no invoice line items' with filter options for P Number and Reporting Period.

- On the **Completed** tab, review the **Payment Information region** for pending and successful invoice line items.

The screenshot shows the 'Completed' tab selected in the navigation menu. The main heading is 'Manufacturer Portal CGDP Completed Payments'. Below this, there are filters for Contract Number (ALL), Corporate ID (XP1__7), and P Number (P1__7). The 'Invoice Reporting Period' is set to 201604. A table lists invoice items with columns for Contract Number, Invoiced Amount, Payment Date, Status, and EFTID. To the right, a 'Payment Information for P1-7' box shows a summary of financials: Total Invoiced (\$4,033.84), Total Received (\$3,958.60), Total Deferred (\$0.00), Total Pending (\$75.24), Total Failed (\$0.00), and Total Outstanding (\$0.00). A 'Possible Statuses' box explains Deferred, Pending, and Successful statuses.

Contract Number	Invoiced Amount	Payment Date	Status	EFTID
S5__0	\$75.24	07/25/2017	Pending	CG16041__7S5__0
H0__4	\$320.11	07/22/2017	Successful	CG16041__7H0__4

H0__2	\$75.81	07/22/2017	Successful	CG16041__7H0__2

Note: Deferred invoice line items are **only** available when the **Total Available** field's total is less than \$20.00 USD **and** the Manufacturer's bank ACH process prevents processing total amounts selected for payment initiation that fall below their bank's specified minimum ACH processing amount.

- Review the invoice line items in the **Completed Transactions region** and locate an invoice line item with the **Status** column populated with *Successful*. A successful invoice line item denotes that fund should be available in the payee's account. Totals for successfully processed payments will appear in the **Total Received** field in the **Payment Information region**.

This screenshot is identical to the one above, but with a red rectangular box highlighting the 'Successful' status in the 'Status' column of the invoice table for the H0__4 and H0__2 items.

- Review the invoice line items in the **Completed Transactions region** and locate an invoice line item with the Status column populated with *Pending*. A *Pending* status denotes that an invoice line item initially passed the payment initiation process, but the debiting process, holding period and crediting processes remain to be completed.

1. **Tabbed region** displays the tab that is currently active and tabs available for selection.
2. **Invoice Reporting Period region** displays the specified quarterly reporting period for the negative invoice line items, in YYYYQQ format, based on the reporting period selected in the **Filter region** on the **Home** tab.
3. **Filter region – Receipts** allows a user to search data listed by the defaulted Corporate ID.
4. **Receipt Information region** displays the numerical totals of all negative invoice line items. Also displays statuses that each invoice line item may qualify as at a specific point in time. Negative invoice line item statuses reclassify as they process through the system.
5. **Receipts Transactions region** displays results based on data entered in the **Filter region** on the **Receipts** tab.
6. **Status Definitions region** provides definitions of the statuses displayed in the **Receipts Transactions region**.

The upcoming pages will describe each region and its associated functions.

Tabbed Region – Receipts

The **Tabbed region** allows a user to select different activities to perform while accessing the system. In this example, the **Receipts** tab is active.

Invoice Reporting Period Region

This section of the **Receipts** tab displays the specified reporting period, in YYYYQQ format, based on the reporting period selected in the **Filter region** on the **Home** tab.

In this example, the reporting period listed in the **Invoice Reporting Period region** is associated with the completed invoice line items appearing in the **Receipts Filter Results region**.

This region also contains a footnote regarding the data displayed in the **Invoice Reporting Period region**. This footnote provides a user instruction on how to review receipt of payments for a different reporting period.

To view receipts for a different reporting period, return to the Home tab and select the radio button line item that contains the desired reporting period.

Filter Region – Receipts

The **Filter region** on the **Receipts** tab contains four (4) fields to assist a user with narrowing invoice line item search criteria.

- A. Contract Number field allows a user to select specific contract numbers from the drop down list. The field defaults to 'ALL', which displays all contract numbers for the reporting period. The drop down list provides update capability to select another contract number with negative line items due within the same reporting period for the selected P number displayed in the P Number field.
- B. Corporate ID column defaults to the Corporate ID utilized to access the system.
- C. P Number field displays the P number for negative invoice line items. This field defaults based on the distributed invoice selected on the **Home** tab. The drop down list provides update capability to select another P number from those assigned to the Corporate ID.
Note: this field will only allow update to P Numbers that have negative invoice line items for the same reporting period. In order to view a different reporting period, a user will need to return to the **Home** tab and select a distributed invoice with a different reporting period.
- D. Item Count column displays the number of invoice line items displayed on the current page of the total number of invoices included for the reporting period.

Receipt Information Region

The **Receipt Information region** provides a summary view of activities that occur on the **Receipts** tab.

This region provides up-to-date data regarding negative invoice line item activity in a two (2)-column table with six (6) rows.

¹To view receipts for a different reporting period, return to the Home tab and select the radio button line item that contains the desired reporting period.

The invoice line item selected on the **Home** tab drives information displayed on the **Receipts** tab.

For the BY Closeout, the differences between quarterly invoice processing and BY Closeout processing are:

- Update of the **Invoice Reporting Period region** to the **Reimbursement Report Year region**
- Update to the format of the **EFT ID** column pertaining to BY Closeout invoices in the **Receipts Transactions region**

All other **Receipts** tab functionality remains the same.

The next page will display the regions that contain differences in the **Receipts** tab based on processing BY Closeout invoices. All other **Receipts** tab functionality remains the same as quarterly invoice processing.

Reimbursement Report Year Region

For BY Closeout invoicing, this section of the **Receipts** tab displays the specified reimbursement report period, in YYYY format, based on the invoicing period selected on the **Home** tab.

In this example, the report year listed in the **Reimbursement Report Year region** is associated with the completed invoice line items appearing in the **Receipts Filter Results region**.

2 Reimbursement Report Year: 2016 1

This region also contains a footnote regarding the data displayed in the **Reimbursement Report Year region**. This footnote provides a user instruction on how to review receipt of payments for a different reporting period.

To view receipts for a different reporting period, return to the Home tab and select the radio button line item that contains the desired reporting period.

Receipts Transactions Region for BY Closeout Invoices

The **Receipts Transactions region** contains five (5) columns that provide a list of invoice line items that are pending completion of the payment process from a Sponsor.

The fields displayed in the **Receipts Transactions region** are the same, with the only exception pertaining to the EFT ID. The EFT ID column data pertains to BY Closeout receipt invoice types.

E. EFT ID column displays EFT identifying information for CY Closeout invoice receipts.

CGDP Portal Reporting Link

The **Reporting link** allows Manufacturers to create on-demand spreadsheets for invoice line items, receipts, or summary reports for overall totals by reporting period via the Portal. The design of the **Reporting link** assists users in creating a report containing all data in one (1) Excel file versus individual pages of data obtained by using the Print icon available on each tab.

The **Reporting link** allows a user to generate reports for specific data criteria or all available data criteria for invoice line items or receipts.

The screenshot shows the 'Coverage Gap Discount Program Invoice Line Item Reporting' interface. At the top left are the logos for Palmetto GBA and CMS. The top right contains navigation links: 'Contact Us', 'My Profile', 'Help', 'Logout', and 'Reporting' (highlighted in red). Below the logos is the text 'Logged on as XP1...6'. The main heading is 'Coverage Gap Discount Program Invoice Line Item Reporting'. The interface is divided into three numbered regions:

- 1 Select which items you want to display on the report (Detail Reports Only)**: This region contains a grid of checkboxes for 'Corporate ID', 'P Number', 'Contract Number', 'Status', 'Reporting Period', 'Invoice/Receipt Amount', 'Payment Status Date', 'Payment Initiation Date', and 'EFT'.
- 2 Detail Report Filters**: This region contains five dropdown menus for 'Report Source', 'Select P Number', 'Select Contract ID', 'Select By Status', and 'Reporting Period'.
- 3 Manufacturer Summary Report**: This region contains three dropdown menus for 'Summary Report for P Number', 'Reporting Period', and 'Manufacturer Status'. Below this region is a link: 'Run Manufacturer Summary Query'.

The **Reporting link** contains three (3) regions.

1. **Detail Report Column Header Selection region** provides users with ability to select column headings for populating a report with data for invoices or receipts based on the column headings and applicable data chosen for an Excel spreadsheet output.
2. **Detail Report Filters region** allows a user to select specific criteria to display in detail for invoices or receipts.
3. **Manufacturer Summary Report region** allows users to generate payment summary reports for a Corporate ID including payment summary information for all P numbers, Reporting Periods and Payment Statuses or have the ability generate reports based on specific P numbers, Reporting Periods or Payment Statuses, as determined by a user.

The upcoming pages will describe each region and its associated functions.

Detail Report Column Heading Selection Region

The **Detail Report Column Heading Selection region** provides users with the ability to select specific column headings for populating reports with data for invoices or receipts.

The **Detail Report Column Heading Selection region** contains nine (9) check boxes to provide users with options for populating invoice line item or receipt data to an Excel spreadsheet on-demand report.

1 Select which items you want to display on the report (Detail Reports Only)								
<input type="checkbox"/> A	Corporate ID	<input type="checkbox"/> B	P Number	<input type="checkbox"/> C	Contract Number	<input type="checkbox"/> D	Status	
<input type="checkbox"/> E	Reporting Period	<input type="checkbox"/> F	Invoice/Receipt Amount	<input type="checkbox"/> G	Payment Status Date	<input type="checkbox"/> H	Payment Initiation Date	<input type="checkbox"/> I EFT

- A. Corporate ID check box will display Corporate ID column headings for data included in the spreadsheet.
- B. P Number check box will display P number(s) column headings for data included in the spreadsheet.
- C. Contract Number check box will display contract number(s) for data included in spreadsheet.
- D. Status check box will display Status column headings for data included in spreadsheet.
- E. Reporting Period check box will display Reporting Period column headings for data included in the spreadsheet.
- F. Invoice /Receipt Amount check box will display Invoice Amount or Receipt Amount column headings for data included in the spreadsheet.
- G. Payment Status Date check box will display Payment Status Date column headings for data included in the spreadsheet.
- H. Payment Initiation Date check box will display Payment Initiation Date column headings for data included in the spreadsheet.
- I. EFT check box will display EFT column headings for data included in the spreadsheet.

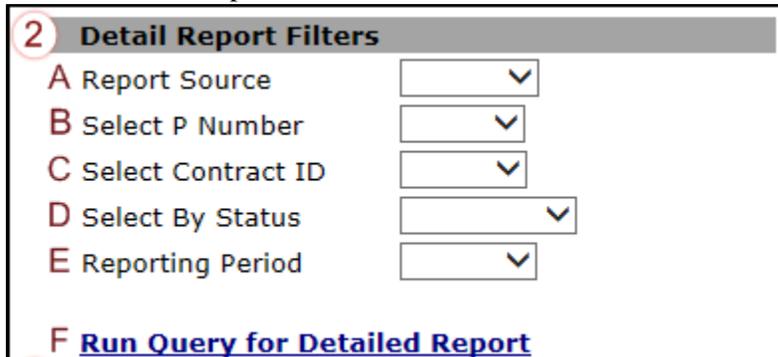

Note: This region is only available for detail Invoice or Receipt reports.

A user is not required to select any of the check boxes.

Leaving all checkboxes blank will populate the on-demand report with all column headings on the spreadsheet output. Selection of additional filters will limit the data displayed on a report.

Detail Report Filters Region

The **Detail Report Filters region** contains six (6) fields to assist a user with defining data included in an on-demand report.

The screenshot shows a form titled "2 Detail Report Filters" with the following fields:

- A Report Source (dropdown menu)
- B Select P Number (dropdown menu)
- C Select Contract ID (dropdown menu)
- D Select By Status (dropdown menu)
- E Reporting Period (dropdown menu)
- F [Run Query for Detailed Report](#) (link)

- A. Report Source field allows users to select between *Invoice* and *Receipt* from the drop down list.
Note: Selection of the Report Source is required to determine the type of data included in the on-demand spreadsheet report.
- B. Select P Number field allows user to select specific P number(s) from the drop down list.
- C. Select Contract ID field allows user to select specific Contract ID(s) from the drop down list.
- D. Select By Status field allows users to select specific Status from the drop down list. Statuses include *Completed*, *Deferred*, *Failed*, *Pending*, and *Unpaid*.
- E. Reporting Period field allows users to select specific Reporting Period(s) from the drop down listing.
- F. Run Query for Detailed Report link creates on-demand report spreadsheet(s) with column heading and filter data selections populated by a user.

Note: Population of the Report Source field is required to generate an on-demand spreadsheet report.
All other fields are optional.
Selection of additional filters will limit the data displayed on a report.

Manufacturer Summary Report Region

The **Manufacturer Summary Report region** displays selection criteria fields to allow users to customize summary reports based on P number, reporting period or status for payment data only.

The summary report region contains four (4) fields to limit data displayed on the on-demand report spreadsheet.

The screenshot shows a form titled "3 Manufacturer Summary Report". It contains four items:

- A** Summary Report for P Number: A text label followed by a dropdown menu.
- B** Reporting Period: A text label followed by a dropdown menu.
- C** Manufacturer Status: A text label followed by a dropdown menu.
- D** [Run Manufacturer Summary Query](#): A blue, underlined text link.

- A. Summary Report for P Number field allows user to select specific P number(s) from the drop down list associated with the Corporate ID.
- B. Reporting Period field allows users to select specific reporting period(s) from the drop down listing.
- C. Manufacturer Status field allows users to select specific Status from the drop down list. Statuses include *Completed*, *Deferred*, *Failed*, *Pending*, and *Unpaid*.
- D. Run Manufacturer Summary Query link creates on-demand report spreadsheet with summary report filter data selections populated by a user.

Note: Population of all fields is optional.
Selection of additional filters will limit the data displayed on a report.

CGDP Portal Instructions – Reporting Link

Accessing the Reporting Link

Manufacturers can utilize the **Reporting** functionality to view a readable version of the data report in Microsoft Excel via the Portal. This ad hoc/on-demand reporting tool provides users with the ability to filter invoice and receipt related information.

This instruction provides direction on accessing the **Reporting link** and the functions available for use.

1. Authorized end users will access the Portal to create and review detail invoice and receipt reports. Instructions for daily login into the Portal are in the **CGDP Manufacturer Portal Introduction and Login Users Guide** located under [References](#) on the TPAdministrator.com website.
2. After successful login, the **Home** tab will appear. Select the **Reporting link** in the upper right hand corner of the screen.

3. The **Reporting link** page contains three (3) sections that allow a user to filter ad hoc/on-demand reporting content.
 - Detail Report Column Heading Selection region
 - Detail Report Filters region
 - Manufacturer Summary Report region

This example displays the **Reporting link** page.

The screenshot shows the 'Coverage Gap Discount Program Invoice Line Item Reporting' page. At the top left are the logos for Palmetto GBA and CMS. On the top right, there are links for 'Contact Us', 'My Profile', 'Help', 'Logout', and 'Reporting', along with the text 'Logged on as XP1...6'. The main heading is 'Coverage Gap Discount Program Invoice Line Item Reporting'. Below this is a section titled 'Select which items you want to display on the report (Detail Reports Only)' containing nine checkboxes: Corporate ID, P Number, Contract Number, Status, Reporting Period, Invoice/Receipt Amount, Payment Status Date, Payment Initiation Date, and EFT. The next section is 'Detail Report Filters' with five dropdown menus: Report Source, Select P Number, Select Contract ID, Select By Status, and Reporting Period. Below that is a link for 'Run Query for Detailed Report' and a section for 'Manufacturer Summary Report' with three dropdown menus: Summary Report for P Number, Reporting Period, and Manufacturer Status. At the bottom is a link for 'Run Manufacturer Summary Query'.

4. The upcoming steps provide direction for generating detail invoice and receipt reports utilizing the **Detail Report Column Heading Selection** and **Detail Report Filters** regions.
5. The first region of the **Reporting link** page, the **Detail Report Column Heading Selection region**, allows a user to filter information by populating one (1) of the nine (9) check boxes available.

This is a close-up of the 'Select which items you want to display on the report (Detail Reports Only)' section. It shows a grid of nine checkboxes, each followed by a label: Corporate ID, P Number, Contract Number, Status, Reporting Period, Invoice/Receipt Amount, Payment Status Date, Payment Initiation Date, and EFT. A red rectangular box highlights the entire grid of checkboxes.

Note: Selection of check boxes in this region limits the data displayed in the report output. To view all available data for a Corporate ID for both invoices and receipts, leave all check boxes blank.

6. The second region of the **Reporting link** page, the **Detail Report Filters region**, allows a user to select between *Invoice* or *Receipt* reports. The Report Source field is a required field.

Summary

This **CGDP Manufacturer Portal Payments Users Guide** introduced the CGDP Portal's **Payments** tab functionality.

The primary function of the Portal is to provide a central repository for Program-qualified PDE invoices to be distributed and paid by Program participating Manufacturers and Sponsors with the ability to initiate bank to bank ACH transfers, similar to the way online banking customer pay monthly bills.

You have learned that the Portal houses invoices for Quarterly and BY Closeout invoices and has two (2) different roles for users to access distributed invoices and reports: The **Payment Initiator** role and the **Administrator** role.

This Users Guide also introduced the following functionality available to authorized Manufacturer users:

- The **Payments** tab provides payment capabilities to allow the selection of one (1), some, or all the invoices distributed for payment processing. Invoice payments can be future dated and stop paid, if certain criteria are met. Payments may also be available for deferability, if the amounts fall below the systems deferred allowable amount.
 - The TPA recommends that invoices are paid prior to the payment due date or the “*Invoice Paid By 38th Calendar Day After Receipt*” date, not on the due date. Initiating payment prior to the due date will allow for error-free processing of Portal-initiated ACH payments. Payments that error out on the due date are not considered as initiated and will require special handling between the Manufacturer and the TPA. Payments that do not meet the “*Invoice Paid By 38th Calendar Day After Receipt*” due date, may be subject to civil money penalties (CMP) assessed by CMS as per the Manufacturer agreement.
- The **Completed** tab provides status information of previously initiated payments that have completed the nightly status update process successfully.
- The **Receipts** tab provides a listing of invoiced line items due to be paid to Manufacturers by Program-participating Sponsors.
- The **Reporting** link provides a user with the ability to generate on-demand spreadsheets for invoice line items, receipts, or summary reports for overall totals by reporting period.

Finally, you learned that all payments are due to be completed in the Portal on or before the payment date listed in the **Payments Due region**, as listed on the **Payments** tab and as noted in the “*Invoice Paid By 38th Calendar Day After Receipt*” as defined in the [Medicare Part D CGDP Calendar](#).

Appendix C: Manufacturer Payment Initiation Upload Batch Input Requirements

Utilize this reference document to format text files for use in the Payment Initiation Upload process.

Collect payment initiation information of the Corporate ID and reporting period to be included in the header record to create a batch upload file.

The format of the Payment Initiation Batch header record will be as follows:

Data Type	Length	Description
HDR	03	Header record type for batch
Data divider	01	; (semicolon)
Corporate ID	06	Responsible Manufacturer XP number or XPT number
Data divider	01	; (semicolon)
Reporting Period	06	Year and Quarter of invoice, in YYYYQQ format
EOL	Variable	End of line indicator – Example – CRLF

Collect payment initiation information of the individual invoice line items selected to be processed and included in the detail record to complete the batch upload file.

The format of the Payment Initiation Batch detail record(s) will be as follows:

Data Type	Length	Description
DET	03	Detail record type for batch
Data divider	01	; (semicolon)
P Number	05	Submitting Manufacturer ID
Data divider	01	; (semicolon)
Contract Number	05	Submitting Sponsor contract number
Data divider	01	; (semicolon)
EFT ID	15	CG for Coverage Gap, YYQQ for reporting period, P number, contract number. Example of format: CGYYQQ9999H9999
Data divider	01	; (semicolon)
Payment Initiation Date	08	Date payment of invoice to begin processing, in CCYYMMDD format
Data divider	01	; (semicolon)
Defer	01	Designation for deferment of invoice. Y for Yes to Defer. N for No to Defer.
Data divider	01	; (semicolon)
EOL	Variable	End of line indicator – Example – CRLF
