Tab Regions***

# CGDP Portal DPP-Manufacturers Tabbed, Calendar and Report Type Regions

The first three regions of the **Reports** tab are:

The screenshot displays the CGDP Portal DPP-Manufacturers interface. At the top, there is a navigation menu with tabs for Home, Payments, Completed, Receipts, and Reports. The Reports tab is selected and highlighted with a red box. Below the navigation menu, there is a section titled "Manufacturer Portal CGDP Reports" with a red box around it. This section contains a row of radio buttons for selecting report types: Invoice, Data, Dispute, Batch, and Sponsor 1099 Information. The Batch option is selected. To the right of this section is a "Current Cutoff Calendar" table with a red box around it. The table lists reporting period and distribution dates for various activities.

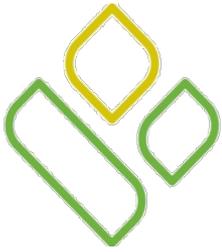

Current Cutoff Calendar	
Reporting Period	201404
Invoice Paid by	03/11/2015
Invoice Distribution	01/31/2015
Dispute Submission	04/02/2015
Dispute Distribution	06/01/2015

The **Tabbed region** allows the user to select different activities to perform while accessing the system. The **Tabbed region – Reports** provides the access to the **Reports** tab to review the different invoice related reporting data.

The **Reports Current Cutoff Calendar region** displays pertinent program dates for the applicable reporting period. The calendar updates each quarter to provide the active reporting period date information.

The **Reports Type Selection region** provides a user with four selections to display or download distributed files and reports. The following slide will describe the five types of report selections available.

In this example, the **Reports** tab is active, the **Reports Current Cutoff Calendar region** displays program dates for the 4<sup>th</sup> quarter of calendar year 2014 and the **Reports Type Selection region** radio button is populated for Batch reports.

# CGDP Portal DPP-Manufacturers Reports Type Selection Region

The **Reports Type Selection region** provides four types of report selections for Manufacturers to utilize.

③  Invoice  Data  Dispute  Batch  Sponsor 1099 Information

- Batch reports: provides a user with reports containing uploaded batch file results when using the **Payment Initiation Upload** process. The user is able to view batch file status for successful upload, partial upload or failed batch file uploads and review errors associated with failed records.

③  Invoice  Data  Dispute  Batch  Sponsor 1099 Information

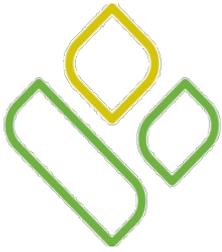

- Invoice reports: provides a user with the ability to select and view distributed invoice line item reports. The report provides abbreviated information for distributed invoice line item totals and provides the ability to download the collected information for review. The default selection for the **Report Type Selection region** is Invoice. *Invoice reports will be presented in a separate training session.*

③  Invoice  Data  Dispute  Batch  Sponsor 1099 Information

- Data reports: provides a user with reports containing detail information of Prescription Drug Event (PDE) submissions combined to create the total invoice line item amounts distributed to the Manufacturer. *Data reports will be presented in a separate training session.*

③  Invoice  Data  Dispute  Batch  Sponsor 1099 Information

- Dispute reports: allows the user to submit disputes and review reports for the status of submitted disputes. *Dispute reports will be presented in a separate training session.*

# CGDP Portal DPP-Manufacturers Reports – Batch Tab Functionality

---

You have now learned about the different regions and fields available on the **Reports** tab.

In this section of the training session, a high level overview of the steps needed to utilize the **Reports – Batch** tab functionality will be presented on the following slides.

# CGDP Portal DPP-Manufacturers Reports – Batch Tab Functionality

On the **Home** tab, select the **Reports** tab view the report types available for the Manufacturer for the reporting period.

On the **Reports** tab, select the radio button for **Batch** in the **Reports Type Selection region**, verify the **Corporate ID** field defaults to the applicable Manufacturer Corporate ID, and select an applicable batch file to download and review.

In this example the **Batch** radio button is populated, the **Corporate ID** field displays the default selection of **XP1\_\_8** and the **Download** radio button corresponding to the **Batch ID** of **501** is populated.

# CGDP Portal DPP-Manufacturers Reports – Batch Tab Functionality

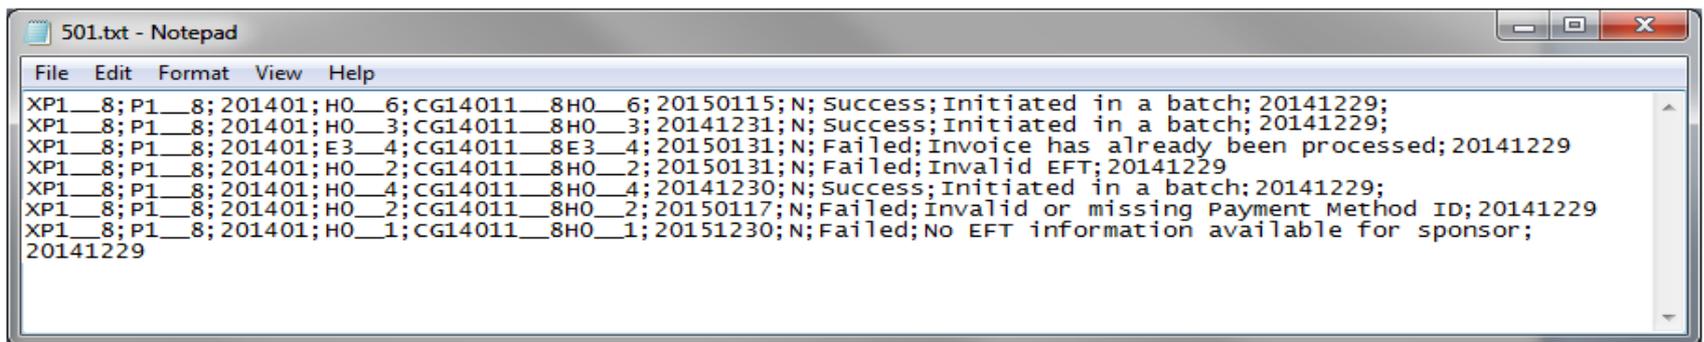

To view the batch file report, select one of the following dialog boxes in the message that appears at the bottom of the screen.

- Open: view the data in text file format
- Save: save the data in text file format
- Cancel: exit the decision message

Selecting the Open dialog box will allow a user to view all invoice line items displayed in the batch text file.

This example displays the downloaded batch text file with seven lines, four of which failed batch processing with error messages listed in the file.
